

New pre-Kindergarten transition group for children with disabilities.

Our pre-K group is designed to develop academic skills, behavioral skills, social skills and language skills. Our team can also provide a personalized transition report to schools if needed when entering kindergarten.

- Facilitated by a speech-pathologist, counselor and retired elementary school teacher
- Small group sizes
- Meets Tuesdays/Thursdays from 9-11:30am

We focus on maximum results that take into account the specific needs of your child, family and child's support system. And we make therapy affordable.
